SAMPLING INSTRUCTIONS:

1. Remove screens from faucet (or use faucet without a screen such as the bathtub faucet).
2. Let water run prior to sampling (Well in use – run 5 minutes); (New Well – run water 30 minutes); (Well not in use – run water 2 hours).
3. Fill containers, leaving a small air space, so sample can be shaken. **DO NOT TOUCH ANY INSIDE PART OF LID OR CONTAINER**, this may result in contamination. Please check your lids; make sure they are on straight and tight.
4. Fill out form completely and clearly. Hand deliver the sample(s) and the completed form to the ClearWater Laboratory at 153 Main St. Newport, Maine.
5. Or, you may mail your sample back to us. Mail your sample first class at a post office, not a drop box. This will help to ensure prompt delivery. A pre-addressed label has been provided.

THANK YOU!

Samples cannot be tested for bacteria if:

THANK YOU!

◆ Sample is more than 30 hours old ◆ You do not provide a collection date or time ◆ We detect a chlorine odor
